Re: Minor Modification of National Pollutant Discharge Elimination System (NPDES)
Permit #AK-0053309

Dear Mr. Wilcox:

The U.S. Environmental Protection Agency (EPA) has made a minor modification of the NPDES permit referenced above in order to allow for a change in ownership and operational control of the facility from Pacific Energy Resources, Ltd. to Cook Inlet Energy, LLC in accordance with 40 CFR 122.63(d). EPA has determined that no other change in the permit is necessary. As of December 10, 2009, permit responsibility, coverage, and liability rests with Cook Inlet Energy, LLC. The modified cover page showing the new permittee is enclosed with this letter.

EPA's databases have been updated to reflect the change of ownership, including the updated contact information provided in your letter of February 23, 2011.

If you have any questions about this action, please contact Brian Nickel at 206-553-6251 or at Nickel.Brian @epa.gov.

Sincerely,

Michael J. Lidgard, Manager
NPDES Permits Unit

**Authorization to Discharge under the
National Pollutant Discharge Elimination System**

In compliance with the provisions of the Clean Water Act, 33 U.S.C. §1251 *et seq.*, as amended by the Water Quality Act of 1987, P.L. 100-4, the “Act”,

Cook Inlet Energy, LLC
601 W 5th Ave, Suite 310
Anchorage, AK 99501

is authorized to discharge from the Osprey Platform located in the Cook Inlet, in Alaska, at 60° 41' 46" North latitude and 151° 40' 10" West longitude. The following discharges are authorized:

Discharge	Discharge Description
002	Deck Drainage
003	Sanitary Wastes
004	Domestic Wastes
005	Desalination Backwash
007	Boiler Blowdown
008	Fire Control System Test Water
009	Non-contact Cooling Water
012	Excess cement slurry
021	Filter Backwash

in accordance with discharge point(s), effluent limitations, monitoring requirements and other conditions set forth herein.

This permit shall become effective October 1, 2009.

This permit and the authorization to discharge shall expire at midnight, September 20, 2014.

The permittee shall reapply for a permit reissuance on or before December 2, 2013, 180 days before the expiration date of this permit, if the permittee intends to continue operations and discharges at the facility beyond the term of this permit.

Signed this 21st day of August, 2009.
